## Analysis of rents (12/31/2004)

**Total share: €397.5M**

**Group share: €347.2M**

## Predictable change in variable rent

Downturn in variable rents attributable to index-linked adjustments, slowdown in consumer spending and major renewal campaigns

- Percentage of variable rent in total fixed rent

- Variable rent accounts for low percentage of total rent
  - €11.1 M in 2004 (3.3%) of total shopping center rents and 3.9% of French rents
- Variable rent concentrated in 2 principal sectors
  - Culture/ Leisure and Health/Beauty

## A moderate cost occupancy ratio

- Makes malls more resistant
- Makes malls more attractive
- Enhances their potential for revaluation
