IFRS COVID-19 ACCOUNTING TREATMENT

2 main IFRS standards may apply regarding rents relating to the closure period:

IFRS 16 (Leases)

For the lessor, when a rent concession qualifies as a lease modification, the impact is taken to income on a straight-line basis over the minimum lease term as a reduction of rental revenue.

As of June 2020, 341 deals have been signed. Rent concessions have been recognized on a straight-line basis and the impact on H1 net rental income is limited (less than €1 million).

IFRS 9 (Financial instruments)

This is applicable to tenants subject to insolvency proceedings or for which such proceedings can be reasonably expected to occur in the near future. In this case, the receivable must be impaired to the extent of the expected loss, and taken to income net of security deposits or guarantees, where applicable.

In H1, provisions for bad debts increased by €11 million;

NET CURRENT CASH FLOW DOWN 1.2%

#1

Leasing activity has been **subdued** resulting in lower **reversion** gains and a slight increase in **vacancy**

#2

Variable revenues (sales-based rents/specialty leasing/car park income) have **fallen** mechanically

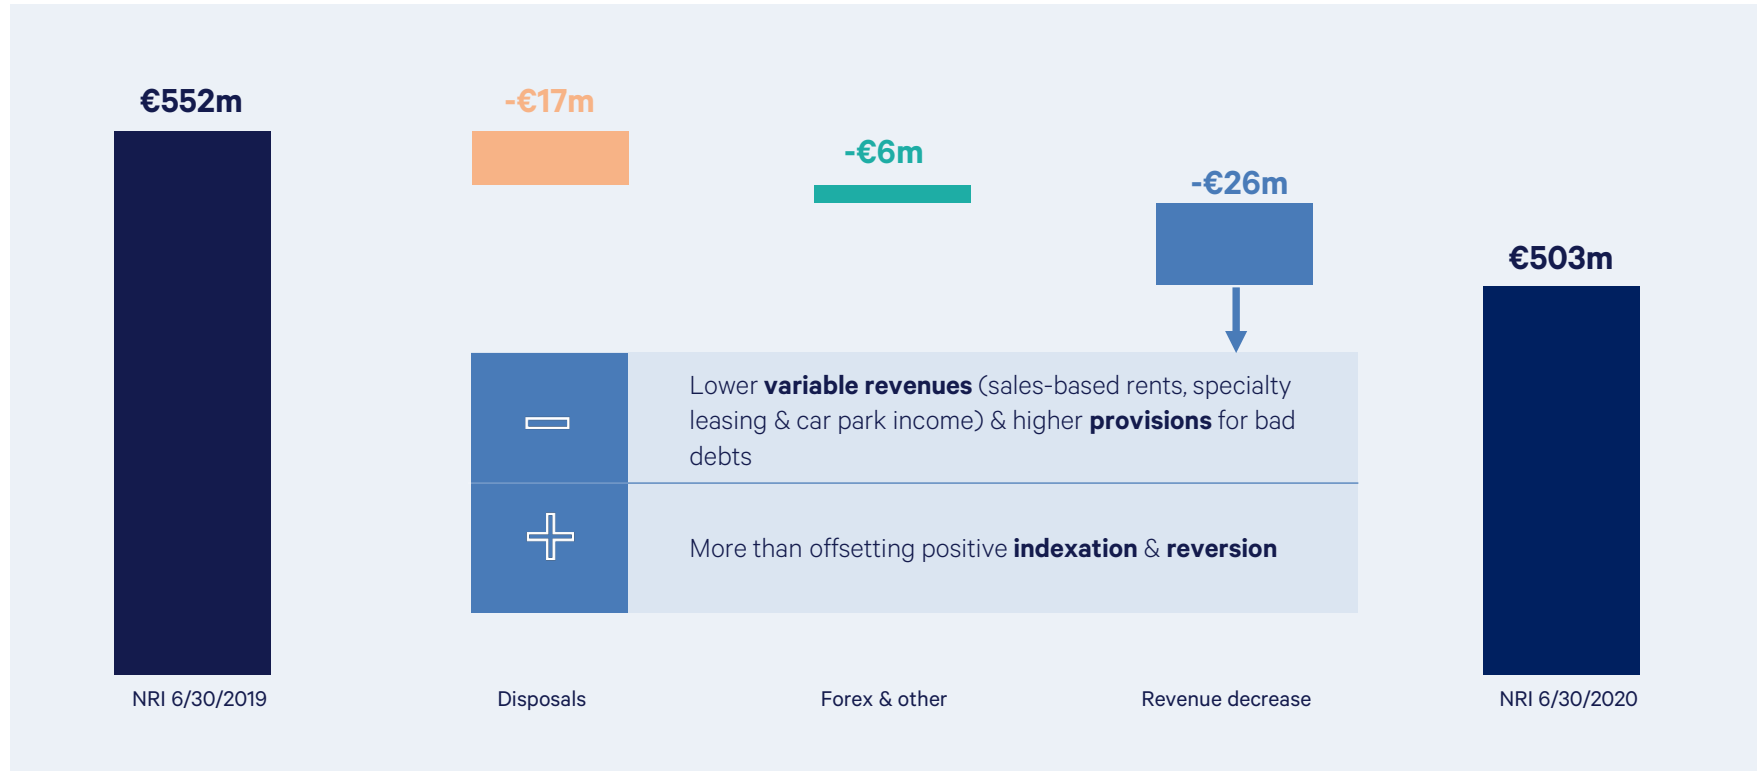

#3

Higher number of **insolvency** procedures leading to an increase in provisions

#4

We have **reduced** our **costs** (G&A, financial & tax)

NET RENTAL INCOME EVOLUTION

THE INCREASE IN VACANCY HAS BEEN MODEST IN H1

Financial vacancy increased by 80 bps, broadly in line with physical vacancy (+90 bps)

This results from lower leasing activity and a higher number of bankruptcies

AT THE ONSET OF LOCKDOWN, WE IMPLEMENTED A STRICT ACTION PLAN TO REDUCE COSTS

Lower staff costs

through hiring deferrals, furloughs, and other efficiencies

Lower administrative costs

Lower consulting fees & marketing and communication spend

COST OF NET DEBT REDUCED BY €10M TO 1.2%

Decrease in cost of debt stemming from **matured high-yield bonds** refinanced at more favorable conditions

Cost of debt (in %) **expected to remain below the prior-year level** thanks to high hedging rate (97%), **low interest rates** and an **improving credit spread**

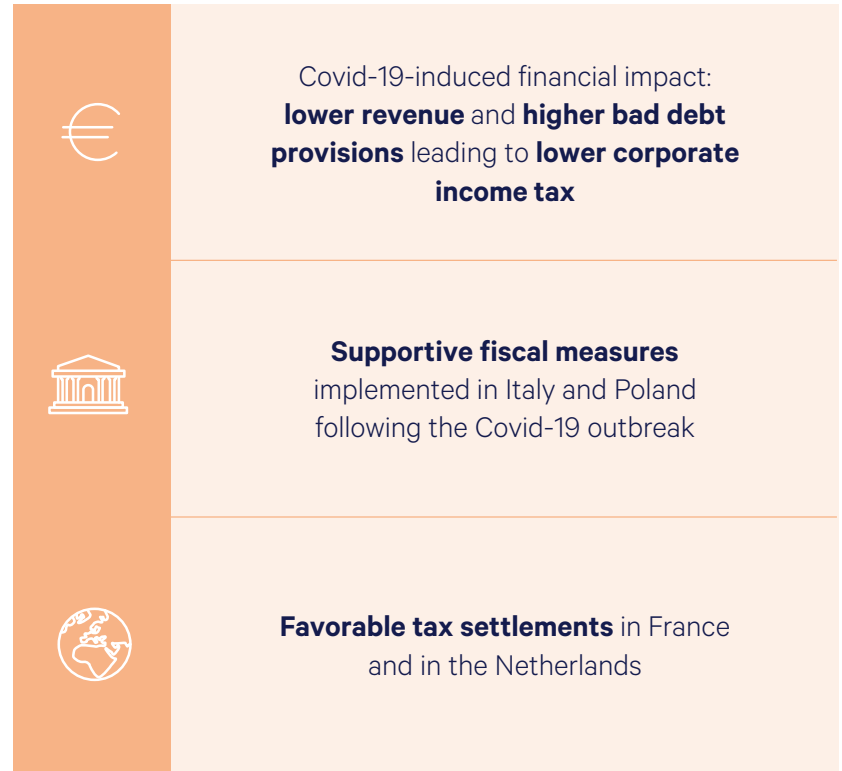

Change in Klépierre's cost of debt

Change in interest rates & Klépierre's credit spread

TAX EXPENSE HAS BEEN REDUCED BY €10M

CONCLUSION

KLEPIERRE

SHOP. MEET. CONNECT.®

HIGHLIGHTS OF THE FIRST-HALF 2020

Firm **re-opening** with **footfall** & **sales** recovering faster than initially expected

Intensive **dialogue** with **retailers** set to trigger an increase in the **collection** rate

Actions implemented to **reduce costs** & capex while strengthening our **liquidity** position

OUTLOOK

Klépierre is not able at this stage to provide guidance for full-year earnings in the context of a still evolving sanitary environment related to COVID-19

Klépierre's conviction is that retailers will continue to refocus their operations on the most productive stores and the most attractive retail destinations for their customers

Klépierre focuses on its long-term goal to have a portfolio of malls that create more social and local value and positively contribute to the environment
